

IMPORTANT UPCOMING WORKSHOP REVEALS:

"How to Protect Yourself or Your Loved One From Ending Up In a Nursing Home and What To Do If You Can't"

How to pay the cost of nursing home care is one of the greatest fears families face today. It's a shame when you scrimp and save for years, only to find out that your life savings is at risk if your health fails. But with nursing home costs running \$6,000 per month or more in our area, it's easy to see how your entire life's savings could be gone in a matter of months if you or your loved one needs nursing home care.

Then, to make matters worse, both Congress and the General Assembly have changed the law in recent years... legal changes to the landscape of asset protection. It used to be that you could wait until you needed nursing home care before you took steps to protect your assets. That is no longer true. Smart families are now discovering that there are still steps to take to protect their assets, but they need to Act now. A new **Free** informational workshop is being offered by Charles Nance of The Nance Law Firm on Thursday, October 31 (10:30 AM) in at the La Quinta Inn, 1301 Huguenot Road next to Chesterfield Towne Center in Midlothian.

At this meeting, here is some of what you will discover:

- **How to protect your assets from nursing home costs - you may be able to save more than you would expect... even if your loved one is already in a nursing home.**
- **One of the most important legal documents you need - and the three things it should contain.**
- **Why traditional estate planning may *not* work... and the life-care planning steps you should be taking *right now* instead.**
- **How to avoid being disqualified for Medicaid coverage by properly structuring gifts.**
- **How to help ensure your estate provides an inheritance for your heirs... and supports your nursing-home-bound spouse.**
- **How to qualify for "hidden" veterans benefits to help you stay at home.**
